#ShotsOf Friendship

A collection of the realest & relatable-st
tales of friendship.

Preface

Stories of friendship on screen have always made us laugh, cry and celebrate with them.

But the inspiration behind these stories?
YOUR FRIENDSHIPS.

In these tough times, Amazon Prime Video decided to brighten things up with real squad stories.

And what started with a simple tweet, became the happiest friendship thread ever!

Culminating into this book where your friendships will live on...

This compilation is meant for reader's entertainment. The views, opinions and thoughts expressed in the messages are personal to the individuals/users who have originally published the tweet and not those of Amazon. The messages are not intended to defame any individual, entity, caste, community, race, or religion or to denigrate any institution or person, living or dead.

Saturday, we dance over beers,
Sunday, we have coffee.
But every time we all meet,
tea is served. 😊 ☕

I don't have memories of you not being in my life, and I am glad I don't, I don't know how life would be without a friend like you. When someone says "Friend", you're the first one I think of. To 20 years and counting 🍷🍷

our friendship is about having the liberty to call each other at 4 am, even when we really don't have anything to say. our friendship is about listening to each other's silences & finding them serene. and not annoying.

The thing about great friendships is that they're sometimes crazy, but always unconditional.

They make you do some wild things, but are always non judgemental.

They don't miss a chance to say "I told you so" but always have your back.

And sometimes on this rollercoaster ride called life, all we ever need are our squads by our side!

This book is home to all OUR epic stories of friendship that have made our lives a better place with their madness and magic.
